Limited Use Label License [P1]

Use of this product is covered by one or more of the following US patents and corresponding patent claims outside the US: 5,079,352, 5,789,224, 5,618,711, 6,127,155 and claims outside the US corresponding to US Patent No. 4,889,818. The purchase of this product includes a limited, non-transferable immunity from suit under the foregoing patent claims for using only this amount of product for the purchaser's own internal research. No right under any other patent claim (such as the patented 5' Nuclease Process claims in US Patents Nos. 5,210,015 and 5,487,972), no right to perform any patented method, and no right to perform commercial services of any kind, including without limitation reporting the results of purchaser's activities for a fee or other commercial consideration, is conveyed expressly, by implication, or by estoppel. This product is for research use only. Diagnostic uses under Roche patents require a separate license from Roche. Further information on purchasing licenses may be obtained by contacting the Director of Licensing, Applied Biosystems, 850 Lincoln Centre Drive, Foster City, California 94404, USA.

Limited Use Label License [P3]

Use of this product is covered by one or more of the following US patents and corresponding patent claims outside the US: 5,079,352, 6,127,155, 5,075,216, and claims outside the US corresponding to US Patent No. 4,889,818. The purchase of this product includes a limited, non-transferable immunity from suit under the foregoing patent claims for using only this amount of product for the purchaser's own internal research. No right under any other patent claim (such as the patented 5' Nuclease Process claims in US Patents Nos. 5,210,015 and 5,487,972) and no right to perform commercial services of any kind, including without limitation reporting the results of purchaser's activities for a fee or other commercial consideration, is conveyed expressly, by implication, or by estoppel. This product is for research use only. Diagnostic uses under Roche patents require a separate license from Roche. Further information on purchasing licenses may be obtained by contacting the Director of Licensing, Applied Biosystems, 850 Lincoln Centre Drive, Foster City, California 94404, USA.

Limited Use Label License [P5]

Use of this product is covered by one or more of the following US patents and corresponding patent claims outside the US: 5,079,352, 5,789,224, 5,618,711, 6,127,155, 5,677,152, 5,773,258, 5,407,800, 5,322,770, 5,310,652, 5,994,056, 6,171,785, and claims outside the US corresponding to US Patent No. 4,889,818. The purchase of this product includes a limited, non-transferable immunity from suit under the foregoing patent claims for using only this amount of product for the purchaser's own internal research. No right under any other patent claim (such as apparatus or system claims in US Patent No. 6,814,934) and no right to perform commercial services of any kind, including without limitation reporting the results of purchaser's activities for a fee or other commercial consideration, is conveyed expressly, by implication, or by estoppel. This product is for research use only. Diagnostic uses under Roche patents require a separate license from Roche. Further information on purchasing licenses may be obtained by contacting the Director of Licensing, Applied Biosystems, 850 Lincoln Centre Drive, Foster City, California 94404, USA.

Limited Use Label License [P7]

A license to perform the patented 5' Nuclease Process for research is obtained by the purchase of (i) both Authorized 5' Nuclease Core Kit and Licensed Probe, (ii) a Licensed 5' Nuclease Kit, or (iii) license rights from Applied Biosystems. This product is an Authorized 5' Nuclease Core Kit. Use of this product is covered by one or more of the following US patents and corresponding patent claims outside the US: 5,079,352, 5,789,224, 5,618,711, 6,127,155, 5,677,152, 5,773,258, 5,407,800, 5,322,770, 5,310,652, 5,210,015, 5,487,972, and claims outside the US corresponding to US Patent No. 4,889,818. The purchase of this product includes a limited, non-transferable immunity from suit under the foregoing patent claims for using only this amount of product for the purchaser's own internal research. Separate purchase of a Licensed Probe would convey rights under the applicable claims of US Patents Nos. 5,538,848, 5,723,591, 5,876,930, 6,030,787, 6,258,569,

5,804,375 (claims 1-12 only), and 6,214,979, and corresponding claims outside the United States. No right under any other patent claim and no right to perform commercial services of any kind, including without limitation reporting the results of purchaser's activities for a fee or other commercial consideration, is conveyed expressly, by implication, or by estoppel. This product is for research use only. Diagnostic uses under Roche patents require a separate license from Roche. Further information on purchasing licenses may be obtained from the Director of Licensing, Applied Biosystems, 850 Lincoln Centre Drive, Foster City, California 94404, USA.

Limited Use Label License [A1]

This product is covered by one or more of the following US patents and corresponding patent claims outside the US: 5,079,352, 5,789,224, 5,618,711, 6,127,155 and claims outside the US corresponding to US Patent No. 4,889,818. The purchase of this product includes a limited, non-transferable immunity from suit under the foregoing patent claims for using only this amount of product solely in Environmental Testing, Food Testing, Industrial Microbiology, including reporting results of purchaser's activities for a fee or other commercial consideration, and also for the purchaser's own internal research. No right under any other patent claim (such as the patented 5' Nuclease Process claims in US Patents Nos. 5,210,015 and 5,487,972, and the dsDNA-binding dye process claims in US Patents Nos. 5,994,056 and 6,171,785) is conveyed expressly, by implication, or by estoppel. Further information on purchasing licenses may be obtained by contacting the Director of Licensing, Applied Biosystems, 850 Lincoln Centre Drive, Foster City, California 94404, USA.

Limited Use Label License [A3]

This product is covered by one or more of the following US patents and corresponding patent claims outside the US: 5,079,352, 5,789,224, 5,618,711, 6,127,155 and claims outside the US corresponding to US Patent No. 4,889,818. The purchase of this product includes a limited, non-transferable immunity from suit under the foregoing patent claims for using only this amount of product solely in Animal Identity Testing and Positive Trait Breeding, including reporting results of purchaser's activities for a fee or other commercial consideration, and also for the purchaser's own internal research. No right under any other patent claim (such as the patented 5' Nuclease Process claims in US Patents Nos. 5,210,015 and 5,487,972, and the dsDNA-binding dye process claims in US Patents Nos. 5,994,056 and 6,171,785) is conveyed expressly, by implication, or by estoppel. Further information on purchasing licenses may be obtained by contacting the Director of Licensing, Applied Biosystems, 850 Lincoln Centre Drive, Foster City, California 94404, USA.

Limited Use Label License [A4]

This product is covered by one or more of the following US patents and corresponding patent claims outside the US: 5,079,352, 5,789,224, 5,618,711, 6,127,155 and claims outside the US corresponding to US Patent No. 4,889,818. The purchase of this product includes a limited, non-transferable immunity from suit under the foregoing patent claims for using only this amount of product solely in Animal Identity Testing and Positive Trait Breeding, Food Testing, including reporting results of purchaser's activities for a fee or other commercial consideration, and also for the purchaser's own internal research. No right under any other patent claim (such as the patented 5' Nuclease Process claims in US Patents Nos. 5,210,015 and 5,487,972, and the dsDNA-binding dye process claims in US Patents Nos. 5,994,056 and 6,171,785) is conveyed expressly, by implication, or by estoppel. Further information on purchasing licenses may be obtained by contacting the Director of Licensing, Applied Biosystems, 850 Lincoln Centre Drive, Foster City, California 94404, USA.

• Others

Limited Use Label License [L1] : One Step RNA PCR / One Step RT-PCR

Use of this product is licensed from bioMérieux, is covered by US Patent 5,817,465 and equivalents, and is for Research Use Only.

Limited Use Label License [L2] : RNA polymerase

This product is covered by the claims of U.S. Patent No. 5,026,645 and its foreign counterpart patent claims.

Limited Use Label License [L3] : Glu-OC Antibody

This product is covered by the claims of U.S. Patent No. 6,004,765 and its foreign counterpart patent claims.

Limited Use Label License [L4] : Quencher

A portion of this product is subject to proprietary lights of Epoch Biosciences, Inc. and are made and sold under license from Epoch Biosciences, Inc. under the patents and patent applications (US20020155484, W00142505, W002099141, US10/113,445, US09/876,830) and corresponding patents issued. There is no implied license for commercial use with respect to this product. A license must be obtained directly from Epoch Biosciences, Inc. with respect to any proposed commercial use of this product, and "commercial use" includes but is not limited to (A) the sale, lease, license or other transfer of this product or any material derived or produced from it, (B) the sale, lease, license or other grant of rights to use this product or any material derived or produced from it, (C) the use of this product to perform services for a fee for third parties (including contract research), and (D) the sale, lease, license or other transfer of kits which include this product.

Limited Use Label License [L6] : Differential Display

This product is covered by the claims of U.S. Patent No. 5,262,311, and 5,665,547 and their foreign counterpart patent claims.

Limited Use Label License [L7] : Gla-OC / Glu-OC Antibody

This product is covered by the claims of Canadian Patent No. 1,281,640.

Limited Use Label License [L8] : Cycling Probe Technology

Sold under license from ID Biomedical Corp.

Limited Use Label License [L9] : RetroNectin®

A method to increase the efficiency of retrovirus mediated gene transfer (covered by the claims of U.S. Patent No. 5,686,278, 6,033,907, 7,083,979, and 6,670,177 and their foreign counterpart patent claims) is licensed to TAKARA BIO INC. exclusively and worldwide.

Limited Use Label License [L10] : Pfu Protease

This product is covered by the claims of U.S. Patent No. 5,242,817.

Limited Use Label License [L11] : SYBR® Green I

This product is covered by the claims of U.S. Patent No. 5,436,134 and 5,658,751 and their foreign counterpart patent claims. Takara PCR products containing SYBR® Green I are sold under license from Molecular Probes Inc. only for the usage in Real-time PCR for internal research purpose. These products are not to be used for the purpose such as; providing medical, diagnostic, or any other testing, analysis or screening services or providing clinical information or clinical analysis in return for compensations.

Limited Use Label License [L13] : pCold™ vectors

This product is covered by the claims of U.S. Patent No. 5,981,280, 6,686,174, 6,333,191 and their foreign counterpart patent claims, assigned to the UMDNJ. This product is covered by the claims of U.S. Patent No. 6,479,260, 6,897,042 and their foreign counterpart patent claims. As a condition of the sales of the products, PURCHASER should agree to all of the Terms and Conditions in the purchaser's agreement, If PURCHASER agrees to the purchaser's agreement, please complete the agreement and send it together with a purchase order. The agreement can be downloaded from our website.

Limited Use Label License [L15] : Hot Start PCR

Licensed under U.S. Patent No. 5,338,671 and 5,587,287, and corresponding patents in other countries.

Limited Use Label License [L16] : His-Tag Sequence

This product is covered by the claims of U.S. Patent No. 5,284,933, 5,310,663 and their foreign counterpart patent claims.

Limited Use Label License [L18] : Gradient Thermocycler

This product (Model #TP600) is licensed under U.S. Patent Nos. 5,525,300, 5,779,981, 6,054,263, 6,962,821, and corresponding foreign counterparts thereto.

Limited Use Label License [L19] : SPP System™

This product is covered by the claims of U.S. Patent No. 5,981,280, 6,686,174, 6,333,191 and their foreign counterpart patent claims and pending patents, assigned to the UMDNJ. This product is covered by the claims of U.S. Patent No. 6,479,260, 6,897,042 and their foreign counterpart patent claims. As a condition of the sales of the products, PURCHASER should agree to all of the Terms and Conditions in the purchaser's agreement, If PURCHASER agrees to the purchaser's agreement, please complete the agreement and send it together with a purchase order. The agreement can be downloaded from our website.

Limited Use Label License [L21] : pDON Vector

This product is covered by the claims of U.S. Patent No. 6,190,907, 6,451,595 and their foreign counterpart patent claims.

Limited Use Label License [L23] : Refolding CA kit

This product is sold by Takara Bio Inc. under license from National Food Research Institute, National Agriculture and Food Research Organization and EZAKI GLICO CO., LTD. This product is covered by the claims of U.S. Patent No. 6,852,833 and its foreign counterpart patent claims.

Limited Use Label License [L24] : Human PREB Chip

This product is the subject of the pending Japanese patent application and its foreign counterparts.

Limited Use Label License [L28] : Adenovirus

This product is covered by the claims of U.S. Patent No. 5,731,172 and its foreign counterpart patent claims.

Limited Use Label License [L30] : Adenovirus CAG promoter

This product is covered by the claims of Japanese Patent No. 2824434 and its foreign counterpart patent claims.

Limited Use Label License [L31] : Adenovirus Dual Cosmid

This product is the subject of the pending U.S. patent application and its foreign counterparts.

Limited Use Label License [L33] : Bacteria Screening

This product is the subject of the pending U.S. Patent Application and its foreign counterparts.

Limited Use Label License [L34] : B. cereus

This product is the subject of the pending U.S. patent application and its foreign counterparts.

Limited Use Label License [L35] : pPTR Vector

This product is the subject of the pending Japanese patent application.

Limited Use Label License [L37] : araB promoter in Chaperone Plasmid

This product is covered by the claims of U.S. Patent No. 5,028,530. The products including araB promoter are sold under license agreement with XOMA Ireland Limited. The purchase of this product conveys to the buyer the non-transferable right to use the purchased amount of the product and components of the product in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The buyer cannot (a) sell or otherwise transfer (i) this product, (ii) its components or (iii) materials or information made using this product or its components to a Third Party, (b) otherwise use this product, its components or materials made using this product or its components (i) for commercial purposes, (ii) to make any materials relating to phage display, protein evolution or engage in phage display or protein evolution or (iii) to express any amount of protein other than quantities reasonably required for research. "Commercial purposes" means any activity by a party for consideration and may include, but is not limited to: (1) use of the product or its components in manufacturing; (2) use of the product, its components or any composition of matter, article of manufacture or information arising therefrom to provide a service, information, or data; (3) use of the product, its components or any composition of matter, article of manufacture or information arising therefrom for therapeutic, diagnostic or prophylactic purposes; or (4) resale, lease or transfer for consideration of the product, its

components or any composition of matter or information arising therefrom, whether or not such product, its components, composition of matter or information arising therefrom are resold for use in research. XOMA Ireland Limited has a number of patents covering various aspects of bacterial expression technologies incorporated into this product. No amount paid by the buyer to Takara or its distributors is or will be considered to be paid to XOMA on account of XOMA's patent rights. Inquiries for any commercial use, including production of material to be sold commercially or used in production or in product development efforts (which includes efforts toward regulatory approval), or for any use related to phage display, should be made directly to XOMA.

Limited Use Label License [L38] : *Fok I*

This product is covered by the claims of U.S. Patent No. 4,999,294 and its foreign counterpart patent claims.

Limited Use Label License [M1] : *Mbo I*

This product is covered by the claims of U.S. Patent No. 5,340,733 and its foreign counterpart patent claims.

Limited Use Label License [M2] : *Aor51H I*

This product is covered by the claims of Japanese Patent No.3092817.

Limited Use Label License [M3] : *Bln I*

This product is covered by the claims of U.S. Patent No. 5,470,732 and its foreign counterpart patent claims.

Limited Use Label License [M4] : *Sse8387 I*

This product is covered by the claims of U.S. Patent No. 5,179,016 and its foreign counterpart patent claims.

Limited Use Label License [M7] : Chaperone plasmid

This product is covered by the claims of U.S. Patent No. 6,159,708 and its foreign counterpart patent claims.

Limited Use Label License [M8] : Chaperone plasmid

This product is covered by the claims of U.S. Patent No. 6,197,547 and its foreign counterpart patent claims.

Limited Use Label License [M9] : pCold™ vectors

This product is covered by the claims of U.S. Patent No. 6,479,260 and its foreign counterpart patent claims.

Limited Use Label License [M10] : pCold™ TF DNA

This product is the subject of the pending U.S. patent application and its foreign counterparts.

Limited Use Label License [M11] : pAUR vectors (for yeast)

This product is covered by the claims of U.S. Patent No. 6,015,689 and its foreign counterpart patent claims.

Limited Use Label License [M12] : pAUR vectors (for *Aspergillus*)

This product is covered by the claims of U.S. Patent No. 6,194,166 and its foreign counterpart patent claims.

Limited Use Label License [M13] : Lyso-gangliosides

This product is covered by the claims of U.S. Patent No. 7,045,322 and its foreign counterpart patent claims.

Limited Use Label License [M14] : Cellulose Cartridge

This product is the subject of the pending JP patent application.

Limited Use Label License [M15] : Lacto-N-biosidase

This product is covered by the claims of Japanese Patent No. 2782563 and No. 2854541.

Limited Use Label License [M16] : Lacto-N-biosidase

This product is covered by the claims of Japanese Patent No. 2829810.

Limited Use Label License [M17] : rEGCase II

This product is covered by the claims of U.S. Patent No. 5,795,765 and its foreign counterpart patent claims.

Limited Use Label License [M18] : Sphingolipid Ceramide Deacylase and Lyso-gangliosides

This product is covered by the claims of U.S. Patent No. 6,428,999, No. 6,821,761 and their foreign counterpart patent claims.

Limited Use Label License [M19] : Production of Sphingolipid Derivatives

This product is covered by the claims of U.S. Patent No. 6,821,761 and its foreign counterpart patent claims.

Limited Use Label License [M20] : Pyridylamination

This product is covered by the claims of U.S. Patent No. 4,975,533 and its foreign counterpart patent claims.

Limited Use Label License [M21] : *BcaBEST*™ DNA Polymerase

This product is covered by the claims of U.S. Patent Nos. 5,436,326 and 5,753,482 and their foreign counterpart patent claims.

Limited Use Label License [M22] : Site-directed mutagenesis

This product is covered by the claims of Japanese Patent No.3743525.

Limited Use Label License [M26] : Mycoplasma detection

This product is covered by the claims of Japanese Patent No.3016395.

Limited Use Label License [M27] : Papillomavirus detection

This product is covered by the claims of Japanese Patent No.2791685.

Limited Use Label License [M28] : Papillomavirus detection

This product is covered by the claims of Japanese Patent No.2785164.

Limited Use Label License [M29] : Fluorescence Differential Display

This product is covered by the claims of Japanese Patent No.3611232.

Limited Use Label License [M32] : Asparaginylendopeptidase

This product is covered by the claims of U.S. Patent No. 5,094,952 and its foreign counterpart patent claims.

Limited Use Label License [M33] : *Pfu* Pyroglutamate Aminopeptidase

This product is covered by the claims of Japanese Patent No.3463951.

Limited Use Label License [M34] : *Pfu* Methionine Aminopeptidase

This product is covered by the claims of Japanese Patent No.3512237.

Limited Use Label License [M35] : *Pfu* Aminopeptidase I

This product is covered by the claims of Japanese Patent No.3464810.

Limited Use Label License [M36] : *Pfu* Protease S

This product is covered by the claims of U.S. Patent Nos. 6,261,822 and 6,358,726 and their foreign counterpart patent claims.

Limited Use Label License [M37] : Ac-DAP

This product is covered by the claims of U.S. Patent No. 6,194,190 and its foreign counterpart patent claims.

Limited Use Label License [M38] : Aureobasidin A

This product is covered by the claims of U.S. Patent No. 5,057,493 and its foreign counterpart patent claims.

Limited Use Label License [M39] : ICAN® DNA Chip

This product is the subject of the pending JP patent application.

Limited Use Label License [M40] : Thermostable RNase H

This product is the subject of the pending U.S. patent application and its foreign counterparts.

Limited Use Label License [M44] : ICAN® technology

This product is covered by the claims of U.S. Patent No. 6,951,722 and its foreign counterpart patent claims.

Limited Use Label License [M45] : RNase-resistant Cycleave probe

This product is the subject of the pending Japanese patent application.

TECHNICAL APPENDIX

Limited Use Label License [M46] : ICAN®-Cycleave and PCR-Cycleave
This product is the subject of the pending Japanese patent application.

Limited Use Label License [M47] : Anti-OC antibody
This product is covered by the claims of Japanese Patent No.2133385 and its foreign counterpart patent claims.

Limited Use Label License [M48] : Anti-OC antibody
This product is covered by the claims of Japanese Patent No.2613067.

Limited Use Label License [M49] : *Candida albicans* SAP2
This product is covered by the claims of Japanese Patent No.3269641.

Limited Use Label License [M50] : *Candida* antigen
This product is covered by the claims of U.S. Patent No. 6,333,164 and its foreign counterpart patent claims.

Limited Use Label License [M51] : Laminin EIA Kit
This product is covered by the claims of Japanese Patent No.2915530 and 3023103.

Limited Use Label License [M52] : GMP-140 EIA Kit
This product is covered by the claims of Japanese Patent No.2868808.

Limited Use Label License [M53] : Anti-human influenza antibody
This product is covered by the claims of U.S. Patent Nos. 5,589,174 and 5,631,350 and their foreign counterpart patent claims.

Limited Use Label License [M54] : PrimeSTAR® HS DNA Polymerase
This product is the subject of the pending U.S. patent application and its foreign counterparts.

Limited Use Label License [M55] : *Lactobacillus* detection
This product is covered by the claims of Japanese Patent No.2935791.

Limited Use Label License [M57] : LA Technology
This product is covered by the claims 6-16 of U.S. Patent No. 5,436,149 and its foreign counterpart patent claims.

Limited Use Label License [M58] : Site-directed mutagenesis
This product is covered by the claims of Japanese Patent No.3004344.

Limited Use Label License [M59] : PerfectShot™ PCR
This product is covered by the claims of Japanese Patent No.3587284.

Limited Use Label License [M60] : Site-directed mutagenesis
This product is covered by the claims of U.S. Patent No. 6,448,048 and its foreign counterpart patent claims.

Limited Use Label License [M61] : mRNA Selective PCR
This product is the subject of the pending Japanese patent application and its foreign counterparts.

Limited Use Label License [M62] : RetroNectin®
This product is covered by the claims of U.S. Patent No. 5,198,423 and its foreign counterpart patent claims.

Limited Use Label License [M63] : TaKaRa Spaced Cover Glass
This product is the subject of the pending JP patent application.

Limited Use Label License [M64] : TaKaRa-Hubble Slide™ Glass
This product is covered by the claims of Japanese Patent No.3727882 and its foreign counterpart patent claims.
